

Would your child like to Participate in a Medical Research Study?

- Is your child between the ages of 5 – 17?
- Is your child able to walk without a walker, crutches, or cane?
- Does your child have spasticity of one or both calves? (abnormal tightness that may cause your child to walk on his/her toes)
- Does your child hyperextend one or both knees when he or she walks?
- Is your child able to follow simple directions?
- Is your child able to walk across a room several times without becoming too tired?

If you answered “Yes” to the questions above, your child may be eligible to participate in a medical research study at Mary Free Bed!

What’s in it for you?

- A travel stipend of \$25 per visit to MFB (\$100 total)
- A gift card for your child in the amount of \$20 to one of three stores.

What’s involved?

- A brief visit to the Motion Analysis Center to be enrolled in the study
- 2 visits to our Orthotics Department to be fit with a custom AFO
- One 3-hour visit after receiving the AFO for computerized measurement of knee motion during walking and select physical therapy measures
