A SIX-HOUR SEMINAR AND A LIFETIME OF KNOWLEDGE

Healing one chronic wound at a time. Take control of wound healing by learning about new strategies, tools and products that can accelerate healing and produce positive wound outcomes. Amp up your care plans with new interventions to get these chronic wounds off your "list"!

SPEAKER

Nancy Morgan, RN, BSN, MBA, WOC, WCC, DWC, OMS, has an extensive background in wound care education, wound management and program development. Her fun, motivational teaching style has inspired health care professionals across the nation.

WHO SHOULD ATTEND

Clinicians interested in wound care or who work directly in wound care such as an LPN, RN, NP, PT, PTA, OT, OTA, MD/DO, nurse manager, treatment nurse, wound care team, clinic director, MDS coordinator or consultant.

LEARNING OBJECTIVES

At the conclusion the course, participants should be able to:

- Discuss characteristics and treatment interventions associated with bacteria levels in wounds
- Select wound debridement options based on wound characteristics
- Identify interventions to implement based on current standards of care for high-risk patients and patients with chronic wound complications
