WHEELCHAIR AND ADAPTIVE SPORTS PROGRAM SCHEDULE

WINTER 2024

Mary Free Bed
Wheelchair and Adaptive Sports

CONNECT MOVE INSPIRE

Mary Free Bed Wheelchair and Adaptive Sports programs can be fast paced, challenging and competitive. Our programs provide a fun opportunity to exercise, make new friends, develop social and teamwork skills, and increase confidence. Many of our athletes can walk, but their abilities are limited when they are competing against athletes without disabilities.

In addition to team sports, we offer adaptive sports clinics for those who prefer a less competitive environment. With the exception of the women's basketball team, our sports programs and clinics are all co-ed.

ELIGIBILITY CRITERIA:

Mary Free Bed Wheelchair Sports Teams

Our teams are open to anyone with a permanent physical disability that limits participation in able-bodied sports.

Participants must be:

- Age 7 and older
- Have a physical disability due to orthopedic or neurological medical conditions
- In need of modification to participate in leisure and sports activities due to physical disability
- Able to benefit from participation in group activities
- Able to follow directions; be alert and oriented
- Free of disruptive behavioral issues that would create a danger to self or others
- Living in a non-institutional setting
- Cognitively able to participate in the program at an appropriate developmental level
- Evaluated by a team coordinator and coach prior to placement
- Able to use upper extremities to independently push a sports chair or handcycle or to independently propel on the ice using sled hockey sticks. (Power chairs may be used in wheelchair tennis, based on coordinator and coach evaluation.)

Mary Free Bed Adaptive Sports Clinics and Classes

Sports clinics offer participants a more relaxed and leisurely experience. Depending on the season:

- Clinics include downhill skiing, water skiing, sailing, kayaking, canoeing, scuba diving, tennis, archery, zip lining, pickleball, tandem cycling and golf.
- Classes include yoga, rock climbing, functional fitness, swim lessons (group and private) and youth sports samplers.

Participants must be cognitively or physically impaired.

Common diagnoses of children and adult participants include amputation, spinal cord injury, spina bifida, stroke, muscular dystrophy, multiple sclerosis, spinal muscular atrophy, hip dysplasia, cerebral palsy, arthrogyrosis, traumatic brain injury and post-polio syndrome. There may be some restrictions based on individual barriers, such as difficulty swallowing water, personal fears or age restrictions. The clinic coordinator will answer any questions.
