

## UNDERSTANDING REHABILITATION PHILOSOPHY

# A 9-TO-THRIVE JOB.

Is your program located within an acute care hospital? Do you share staff with other hospital departments? It's easy for the unique rehabilitation philosophy and needs to get lost in the mix. We provide a variety of educational programs that address this situation.

## LEADERSHIP

This module is designed to be jointly attended by leaders of your rehabilitation program and other hospital units.

- The rehabilitation philosophy is shared and clarified
- At the end of this course, leaders collaboratively create an action plan to move the program operations forward in an effective and efficient manner
- We re-convene the leaders six months and one year after the course to discuss progress

## REHABILITATION NURSING

What's the difference between a poor-performing and a high-performing program? Rehabilitation nurses. Optimal quality and outcomes are achieved when a rehabilitation nursing philosophy is embraced and adequate investments are made in the nursing team. We have a variety of offerings available that address this component.

## THE DIVERSE TEAM

Besides specially trained nurses and therapists, the inpatient rehabilitation team may include care managers, dietitians, nursing assistants, social workers and others. That's why we offer educational programs for everyone. These course offerings are designed to optimize the entire team's role in the rehabilitation process.

## EDUCATIONAL FORMATS

Our educational offerings are available in a variety of formats. Select the one that works best for your team.

**Lunch and Learns:** You supply the lunch, and we supply the expertise.

**Remote Live Webinars:** Customizable webinars are available at a time and place convenient for your team. Select a general topic or have us create a specialized presentation.

## ADDITIONAL EDUCATIONAL TOPICS

- Embracing teamwork to optimize patient outcomes
- Leveraging your team's talents for improved operational efficiencies
- Enhancing interdepartmental communication
- Respecting professional differences and roles in the rehabilitation process

## ACCREDITATION AND SURVEY PREPARATION

Is your program about to be surveyed by the Joint Commission or the Commission on Accreditation of Rehabilitation Facilities? We provide support as you prepare and can assess your survey readiness. We offer both remote education on survey topics and on-site preparation. Let us know what method works best for you.
