

Instructions for Completion

This Excel workbook was developed to serve as a template for providing the data required by *Implementing Regulation* (IR) C-23 P "Trainee Admissions, Support, and Outcome Data" in a clear and consistent format. There are three additional worksheets in this file, each composed of tables required for each of the outcomes in the IR. These tables have been copied directly from the most recent version of the IR, approved by the Commission on Accreditation in April 2016. **Deadline to post data:**

December 1

To complete each table, simply enter the appropriate figures in each of the blank cells. Once you complete all of your data entry, you can: export the tables as a PDF, save each separate table as an image, or have your web designers recreate them in the format that they require. ***It is critical that you keep the row and column labels exactly as they appear in these tables.*** Your program will be considered out of compliance with the IR if they are not consistent with this document.

More complete information on what to include in the tables is provided in the full text of the IR, found [here](#). Please review the IR and its requirements before utilizing this template. If you have any questions about the format or the required content of this IR, please feel free to contact the APA Office of Program Consultation and Accreditation at (202) 336-5979 or at apaaccred@apa.org.

Thank you for your continued support of accreditation!

POSTDOCTORAL RESIDENCY ADMISSIONS, SUPPORT AND INITIAL PLACEMENT DATA:

Postdoctoral Program Admissions

Date Program Tables are updated: 10/02/2020

Briefly describe in narrative form important information to assist potential applicants in assessing their likely fit with your program. This description must be consistent with the program's policies on intern selection and practicum and academic preparation requirements:

Candidates must have completed all of the requirements for a doctoral degree from a regionally accredited doctoral training program in psychology. Strong preference for candidates from APA-accredited programs and internships.

Describe any other required minimum criteria used to screen applicants:

Formal training in clinical psychology, neuropsychology and research methodology / statistics. Applicants who bring increased diversity to the program are especially encouraged to apply.
