Day Rehab is a multidisciplinary program for patients who require intensive rehabilitation services in an outpatient setting. Our goal is to coordinate therapeutic care and resources to provide a smooth, efficient transition to the home, work and community environments.

Patients with the following diagnoses may be appropriate for Day Rehab.

- Stoke
- Brain Injury
- General Deconditioning
- Amputation
- Spinal Cord Injury
- Oncology
- Multi-trauma
- Parkinson's
- Cardio-pulmonary Conditions
