

# HOME & COMMUNITY SERVICE OUTCOMES

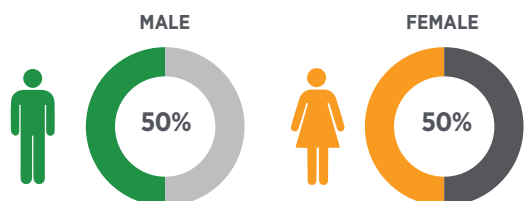

Mary Free Bed  
Rehabilitation Hospital

Service Dates: 4/1/2024 - 3/31/2025

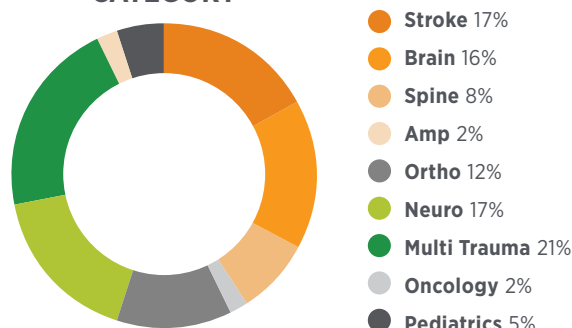

The Mary Free Bed Home & Community Program is designed to work with children and adults in familiar settings such as their home and community. The Home & Community therapy team provides a personal platform of individualized and customized treatment. The focus is not only on physical and cognitive therapies, but also on returning the person to everyday routines such as cooking, shopping, home management, child care, play, leisure activities, work or school.

## PERSONS SERVED

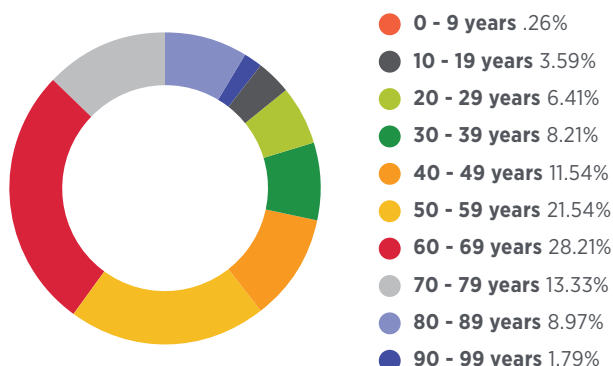

NUMBER OF PERSONS SERVED: **390**

## DIAGNOSIS BY CATEGORY

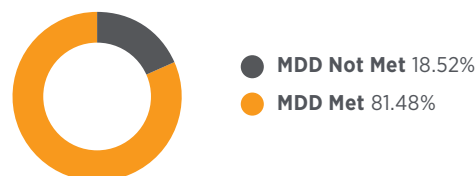

## AGE OF PATIENTS

## GENERAL PROGRAM OUTCOMES

Minimal Clinically Important Difference (MCID) are scores collected from the patient that reflect changes in a clinical treatment that are meaningful for the patient.

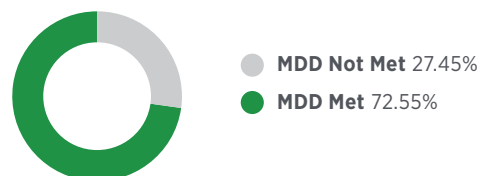

## PATIENT SATISFACTION

In our most recent FY2025 patient satisfaction survey data for patients who experienced a brain injury, 100% of Mary Free Bed Rehabilitation patients responded "Definitely yes" when asked if they were likely to recommend to a family member or friend.
